

Date: 12th February 2021

Dear Parents/Carers,

As this half term comes to an end, I wanted to send a message to all our pupils, staff and parents to thank you for all your support. We are so proud of our pupils for the resilience and hard work they have demonstrated. They have produced some fantastic pieces of learning on Seesaw and have really persevered with any technical issues.

Over the past half term, we have continued to provide learning opportunities that match the curriculum long term plan as detailed on our website. This is to ensure we provide a broad and balanced curriculum to keep all pupils engaged with their learning. However, through discussions with parents and through assessing the pupils' learning we are aware that some pupils have grappled with the content of lessons. Please rest assured in the knowledge that teaching staff know our pupils well and have carefully planned to address any gaps or concerns when we fully return to school.

During February half term, it is important that you stay local, avoiding travelling outside of our local area in order to reduce the transmission of the virus. It is also important to have a restful break away from computer screens. Remote learning will continue Monday 22nd February.

After half term we also have the following special curriculum days planned for the pupils:

Friday 26th February – Fairtrade day
Thursday 4th March – World Book Day

More details on these days will follow after half term.

Finally, a special thank you to all our parents and pupils who came to say 'hello' when I visited our local area. I am aiming to repeat this, so if I didn't visit your street, please watch out for updated locations after half term.

Stay safe and well.

Kind regards,

Principal
