Wild rabbits at home

Wild rabbits like to live in groups. They dig burrows, called warrens. A rabbit warren can be three metres deep, and it has lots of narrow tunnels. The tunnels help keep the rabbits safe from larger enemies such as foxes, badgers and large birds.

3 Find and copy a word on this page that means the same as "burrow".

warren

4 How do you think the tunnels help to keep the rabbits safe from larger enemies such as foxes, badgers and large birds?
