

SS Simon & Jude
Church of England Primary School

Wednesday 5th October

Dear Parents/Guardians,

Our learning focus next week will be about Autumn and Harvest time. I thought this would be a perfect opportunity to provide an activity for home that links directly with your child's learning at school.

The activity is to go for a walk together to look out for and collect as many different types of leaves that you can. You can encourage your child to count the leaves you collect or tick them off the sheet using a pencil as you find them. You could talk about the different colours, shapes, and sizes to prepare your child for our learning in class next week.

Please see the activity sheet attached for reference and if you can collect some leaves, please can you bring them into school by **Monday 10th October.**

Thank you

Miss M Taylor
(Nursery Caterpillars)
